## **Description:**

The drawing above is just a sample of a site to indicate that the software is multi-site, multi user and multi tasking allowing it to manage if required the entire site dataflow.

The UniWin-application takes care of the following;

- 1) Bulk / Open Sack coming in and going out, pre-packed individual items coming in and going out
- 2) Reports include Product In Report, Daily Cash Sales Bulk and Pre-Pack, Stock Alterations, Full Stock Report, Daily Imports, Daily Exports Bulk & Pre-Pack, Product Out Report Bulk & Pre-Pack, Check Ticket and Deleted Transactions.
- 3) A5 Laser Print out Tickets displaying all the required details of the customer/merchant with prices, VAT and the legal weights.
- 4) Individual product pricing for customers and merchants automatically detected when completing any transaction.
- 5) The software supports transparent replication from a remote location to the main head office
- 6) With the use of an Internet link Email reports can be sent to suppliers and customers.
- 7) The software has a report generator for the creation of bespoke reports and statistics.
- 8) Export of Weighings to an ERP-invoicing-program or generate invoices in the application.
- 9) Remote support through a reliable link across the Internet.
- 10) Approved to connect to any Weighbridge Manufacturers Indicator.
